

# Communicable Disease Regional Epidemiologists

**Primary Purpose:** Increase the amount of data accessible to and used by LHDs and community groups.

## Outbreak Support

Work with LHD staff to plan and conduct outbreak data collection & ensure NC EDSS data availability for local and state public health officials.

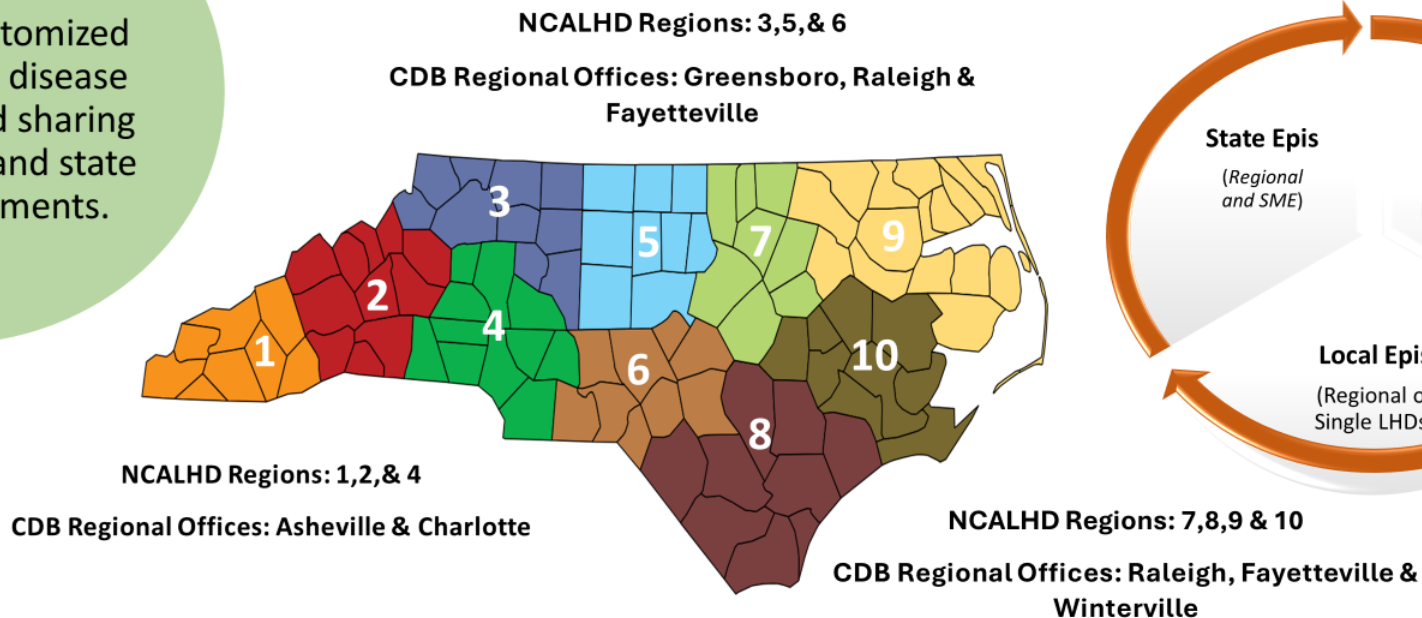

## Data Analysis

Coordinate customized communicable disease data access and sharing between local and state health departments.

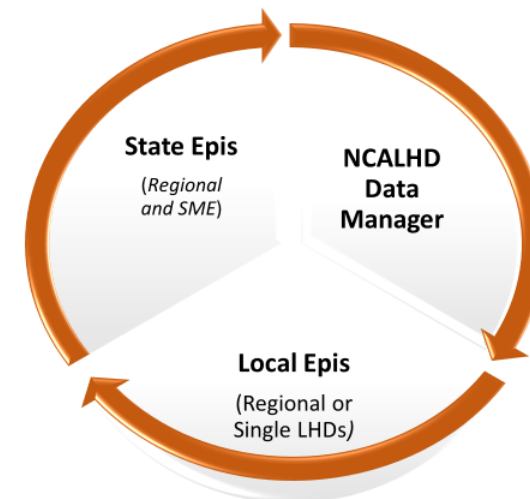

## Community & Data Linkage

Work to improve data equity by supporting community access to state and local data.

## Regional Assignment

## Coordinating Among Roles

## Datasets

NC EDSS (all variables)

eHARS (HIV)

HSA Data

NC COVID (if applicable)

Other, potential NC DPH datasets
